

SCIAENA

Oceanos # Conservação # Sensibilização

Vision

A healthy marine environment and an informed population engaged in its conservation.

Mission

To promote the improvement of the marine environment by encouraging the sustainability of fisheries and other forms of use and minimizing the impacts of pollution through knowledge, education, communication and political intervention.

Fisheries and Aquaculture

3 main Pillars

Marine Pollution and Renewable Energies

Education and Awareness

What we'll be focusing on for Fish-X:

- Community engagement with small-scale fishing communities – Present project and define one or multiple use cases;
- Help with possible technical barriers to adoption;
- Map the supply chain to associate with fishing data and strengthen seafood traceability;
- Continuous industry and stakeholders' involvement in the project;
