

EUROPEAN UNION

EU MISSIONS

RESTORE OUR OCEAN & WATERS

The EU Digital Twin of the Ocean vision

Eva Tzika, Mission Secretariat, Directorate-General of Maritime Affairs and Fisheries (DG MARE)

#EUmissions #HorizonEU #MissionOcean

European Mission 'Restore our Ocean and Waters by 2030'

*Systemic path
to restoration of the health of the ocean & waters
as recommended by the
Mission Board in its Starfish report*

Mission intervention logic

EU DTO: the EC Vision

Support the Mission

PROTECT AND RESTORE MARINE AND FRESHWATERS ECOSYSTEMS AND BIODIVERSITY

PREVENT AND ELIMINATE POLLUTION OF OUR OCEANS, SEAS AND WATERS

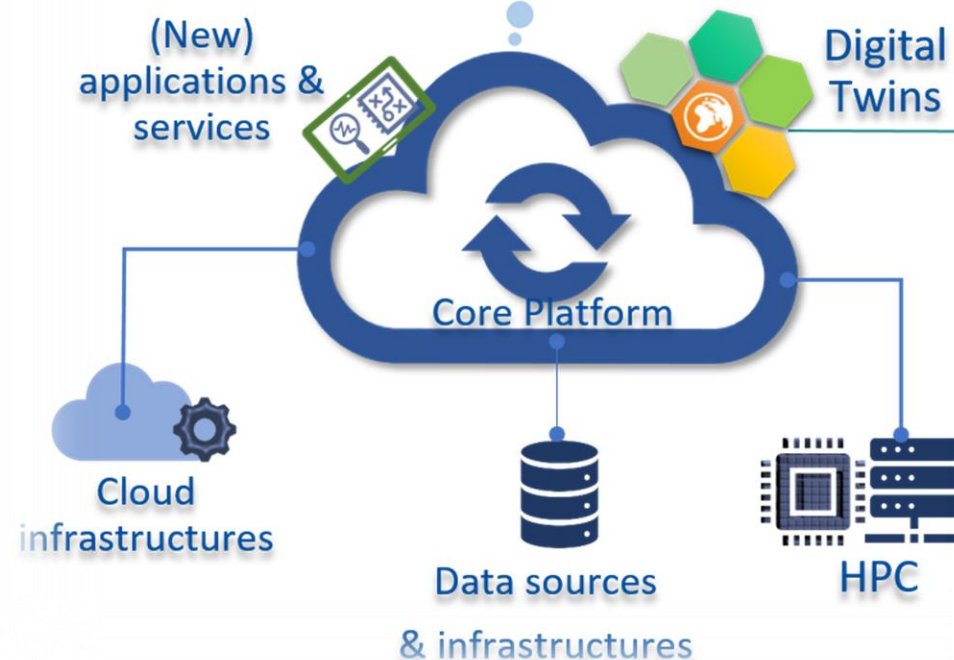

MAKE THE BLUE ECONOMY CARBON-NEUTRAL AND CIRCULAR

Cross-cutting enablers for the mission:

- Digital Ocean and Water knowledge system
- Public mobilisation and engagement

Climate adaptation, extrêmes and geohazards
Ocean, biodiversity, urban

From the EU to the world

“Today, we know the ocean is vulnerable and is threatened by our misdeeds. Pollution, chemicals and the overexploitation of marine resources. The ocean is too large for any one of us, and yet so fragile that our individual actions matter. ...

*... Every problem is an opportunity for innovation. But we need a clear and ambitious objective. We need a mission, like the European Green Deal. **That is why we have launched the ‘Mission to restore our ocean and waters by 2030’***

... Finally, the ocean is still largely a great mystery for humankind.

That is why Europe is building a digital twin of the ocean.

We are connecting our assets – like the Copernicus satellites, marine infrastructure like icebreakers, buoys and underwater drones, and high performance computing. We will gather the raw data and turn it into real-time knowledge and longer-term predictions.

We are putting the power of the digital revolution at the service of our climate. ...”
